Gasworks Lane, Lalbaug, Parel  
Mumbai 400012, India

**Subject: Letter of Intent for WRI India to be knowledge partners to  
BMC's Environment & Climate Change Department.**

.....

**Madam,**

The Brihanmumbai Municipal Corporation (BMC) published the Mumbai Climate Action Plan (MCAP) on 13 March 2022 with WRI India as a key knowledge partner through the planning and development process. To help achieve BMC's climate goals, WRI India has also provided support in capacitating and institutionalizing the Environment department, climate budgeting, implementation of MCAP projects and so on.

Going forward with this partnership, WRI India will continue to support with institutionalizing MCAP within BMC's Environment and Climate Change department by:

- Strengthening capacity of the department through trainings, workshops, focused meetings, and other governance measures.
- Projectising and implementing activities highlighted in the MCAP.
- Supporting the department in creating a project financing facility to help meet BMC's climate goals and targets.
- Providing advisory support and technical knowledge for carrying out the climate budgeting process.
- Supporting the department for undertaking the Vision 2030.

The Environment and Climate Change department will anchor all the coordination and documentation work across the various BMC departments, parastatal bodies, and other Mumbai government bodies.

The BMC does not have any financial obligation towards WRI India for their services through this collaboration.

With signing this letter of intent, the BMC's Environment and Climate Change department agrees to receive support from WRI India on MCAP related activities.

Thanking you,

  
(Mimesh Pimple)
